

September 9, 2021

Dear Valued Retailer,

Dorel Juvenile Group, Inc. (DJG US) is preparing to conduct a voluntary safety recall of certain Maxi-Cosi Pria 70 car seats, designed for use for children weighing 9 to 70 pounds. When the seat is installed in the forward-facing position and secured to the vehicle using the lap belt without also using the top tether, the seat may not adequately protect the child from head injury in the event of a crash. There have been no injuries or incidents reported related to this condition. Using this car seat in both the rear facing mode and forward-facing modes for children up to 65 pounds is certified for use with all labeled installation methods.

The item #s impacted by this recall are Pria 70:

CC133BGW, CC133BWI, CC133BWJI, CC133DCHI, CC133DCN.

The scope of the recall includes manufacture dates between January 1, 2019 and July 31, 2019. DJG US and NHTSA continue to work together toward a remedy for consumers.

If you have any stock of these item #s, please remove from sale immediately and contact your Sales Representative with owned stock details. We will advise next steps once you share item # and quantities.

It is a violation of Federal law to sell or deliver any of these products to consumers.

Dorel Juvenile's purpose is to create a confident parenting journey that nurtures children into a meaningful future – striving for excellence and caring for precious life.

Sincerely,

Richard F. Schaub, Jr.
